Dear Mike:

IT Corporation is pleased to present the attached cost proposal for sampling and analysis associated with the Magna Metals site in Cortlandt, New York.

As I mentioned on the phone, all of the previous data from agency work was confusing and incomplete.

We have provided a cost-effective program that will generate valid data that surpasses the quality of any data resulting from the site to date.

Should you have any questions or comments, please contact me at (908) 396-1600.

Thank you for the opportunity to serve Baker Properties' environmental project needs.

Sincerely,

IT CORPORATION
